1st grade

Rising First through Fifth Grade Summer Math Maintenance

Dear Parents,

Summer is nearly here - hooray! While we look forward to a summer of rest and relaxation, we want to ensure that our students do enough math review and practice to keep their skills sharp for the fall! The purpose of this packet is to make sure you have options that will work for you and your child(ren). Students are encouraged to keep up their arithmetic skills, review math concepts, and continue to explore other topics they are interested in. Intentionally incorporating math into daily activities will promote student success in the new school year. Math packets for each grade will be collected in the fall and students will receive a treat for completing them. Have a wonderful summer!

Required Skills:

It is expected that all students third grade and up are proficient with 0-12 multiplication facts. Multiplication is fundamental to more advanced work in math. 5-10 minutes of practice per day can make a big difference!

Math Practice Options:

Students currently in grades kindergarten through fourth grade will receive a math packet at the end of the year from their current math teacher to complete; this is their primary source for skill review.

For students who finish their packets early and are ready for more – here are some ideas and resources for math practice for all students:

- Flashcards (either printed or online)
- Games (board games and online)
- Review math books pick one up from Target or even the grocery store!
- Free printable worksheets:
 - <u>Math-Aids.com</u> answers included
 - o <u>math-drills.com</u> answers included
 - Webmathminute.com
- Online instruction and practice
 - Khan Academy free
 - Khan Academy Kids free app with no ads; for children ages 2-8
 - o IXL (\$13-\$20 monthly subscription) targeted concepts
- Games (A search will yield many results. Here's a small sample.)
 - o MathPlayground.com developed by a teacher; free
 - o PuzzlePlayground.com developed by a teacher; free
 - Primary Games. Math Flashcards free
 - o BuzzMath free 30-day trial

Combining tens and ones

Grade 1 Place Value Worksheet

Write the correct number using the given tens and ones.

 =	9 tens and 8 ones
_	2 tens and 0 ones

Adding whole tens and ones

Grade 1 Place Value Worksheet

Counting money - pennies, nickels, dimes & quarter

Grade 2 Counting Money Worksheet

Add the coins.

7.

Add two 2-digit numbers in columns, no regrouping

Grade 1 Addition Worksheet

Addition (sums 50 or less)

Grade 1 Word Problems Worksheet

Joan was helping her little sister, Jenna, to clean up her room because it was such a mess!

 Joan found 16 dolls in the toy box and 4 dolls under Jenna's bed. How many dolls did Jenna have?

2. The box for a set of 40 building blocks was half empty. There were only 13 blocks in the box. Joan found 9 blocks in Jenna's closet. How many building blocks did Joan find?

3. There were 23 books on the bookshelf and 5 more on the floor. How many books were there in total?

Adding whole tens and ones - missing addend

Grade 1 Place Value Worksheet

Find the missing numbers:

$$^{13)}$$
 55 = $+$ 50

$$^{14)}$$
 59 = 50 +

$$+60 = 65$$

$$^{17)} 60 + = 66$$

Mixed word problems

Grade 1 Word Problems Worksheet

There is a flower shop at downtown which is having a sale on roses. In the display, there are 10 white roses, 8 pink roses and 7 red roses.

1. What fraction of the roses are pink?

2. How many roses are there in total?

3. The stem of a rose is 18 cm long. If the florist cuts 6 cm off of the stem, how long is the stem?

Identifying tens and ones

Grade 1 Place Value Worksheet

Fill in the correct tens and ones for the given numbers.

tens andones =	76
