Dear Parents,

As we near the end of the school year we encourage our students to continue learning throughout their summer break. It is important for your child to put away the electronics, get outside, play in the mud, and spend quality time with his family family. Some of the initial studies done by the NIH have indicated that children who spend more than two hours a day on screens earned lower scores in reading and language arts.[1]

Please take every opportunity this summer to turn daily activities into a learning experience for your child. Let him help you cook, read ingredients,and measure items. Give him a piggy bank and have him earn money. Coins are a great way to review addition, counting, multiplication and fractions.

Please read to your child every day if possible;this will help maintain reading skills, vocabulary, and broaden his interest in literature. Make this a special time and involve the whole family. Below is our suggested reading list from the school year. Please supplement this list with the schools suggested reading list on the school website. [2]We encourage books that are character forming..

We have enclosed math fact sheets, wrap ups, phonics sheets, readers, a reading recording form, and handwriting sheets. Please have your child use the readers enclosed for oral reading; when he is finished with the readers please allow him to read books of his choice orally. Oral reading should be done three times a week for about 10 minutes each time. Look to make sure your child is not skipping words or inserting incorrect words. If your child is using his finger, have him use a bookmark. This will ensure that his reading is smooth. Some of these bad habits can be formed when students do a lot of independent reading.

If child completes the packet and returns it at the beginning of the school year, he will receive a free ice cream.

Sincerely yours in Christ,
Mary Healey and Miss. Estrada

---
